My name is Kareema. I'm 11 years old. I'm in grade five. I live in Sohar. I like my school so much. My favourite subject is Arabic. I also like Math. I like working with numbers. I'm not very good at Arts. I don't enjoy drawing and coloring. I like my P.E classes because I can play with my friends and do different exercises. I find the science classes a little boring. I don't really like science, but I like English lessons very much. I like English because I can learn how to speak the language outside the school in shops, hospitals, and other places.
