I am Sami and I am in grade six. Today I will tell you about my six school subjects. I usually start the day with Math in the morning. I don't like it because it's difficult for me. Then, Islamic studies lesson starts. I like reading the Holy Quran so much. Then, I have my favorite subject which is sport. I usually like to play football. Then we have our break. After the break I have my other favourite subject which is English. Later, I play drums with my music teacher. It is a little bit noisy, and I don't like the noise. Finally, I have the science lesson where I study about planets, animals, physics and chemistry with my science teacher. I don't like science too.
